

**A fast work out boat, with that extra stability, for all of us that do not have the racing background. Also a great choice for beginners or clubs. You can use what ever kind of paddle, if it's a euro style or a wing. The kayak has one rear hatch, which can be used for gear to go for a shorter trip. The kayak is equipped with a round shape hull and front deck cutaways for a closer, more efficient stroke.**
